Happy Cybersecurity Awareness Month!

October marks National Cybersecurity Awareness Month (NCSAM)—a nationwide initiative focused on promoting stronger digital safety practices and empowering individuals and organizations to stay secure in an increasingly connected world.

As technology continues to evolve, so do the risks associated with data protection, privacy, and artificial intelligence. This month, we're joining the national conversation by highlighting emerging threats, practical safeguards, and evolving regulatory trends to help you and your business stay one step ahead.

Whether you're managing sensitive data, navigating new compliance requirements, or leveraging AI responsibly, cybersecurity is everyone's responsibility, and awareness is the first line of defense.

Below is a brief glance of what you'll find in the October 2025 issue of the *Digital Risk Report:*

- Chatty Chatbots: Why AI Agents are the Silent Threat to Your Company's IP
- AI Related M&A Risks: Acquiring Hidden Liabilities from AI Models
- Client Alert: Government Shutdown Creates a "Perfect Storm" for U.S. Cybersecurity
- Cybersecurity Tips for Businesses
- Texas Senate Bill 140: New Telemarketing Liabilities for Franchisors and Businesses Marketing to Texans
- Recent Legislative & Regulatory News
- Enforcement Actions
- Notable Data Breaches
