## LYNDSAY PETERSON

Mayor of North Logan, Utah

**Q: When were you at Shumaker and what was your position/practice area?**

**A:** I worked as an associate attorney in the Toledo office from 2006 to 2015, where I was a member of the environmental litigation group.

**Q: As Mayor of North Logan, what are you most excited about and/or what are your biggest priorities??**

**A:** Virtually since I moved to North Logan in 2016, I have been working in various capacities on behalf of North Logan, primarily with the library and planning commission. We just finalized a new city center complex, including city offices, which our city desperately needs, a community center, library expansion, and outdoor gathering area. The biggest issue facing our city is managing growth by securing adequate water resources, infrastructure, and by choosing deliberate city planning.

**Q: What do you enjoy most about your career?**

**A:** I love advocating for clients -- or in my current position, for my city.

**Q: What is the best advice you can give a new attorney?**

**A:** Work hard, be curious, and cultivate interests outside of work.

**Q: What motto do you live by?**

**A:** "The great use of life is to spend it for something that will outlast it." ~ William James

**Q: What is your favorite memory of your time working at Shumaker?**

**A:** Spending one special Valentine's Day alone at a refinery in Whiting, Indiana. Walking out of work one evening and being caught off guard by a bouncy ball heading my direction. I caught it and threw it back, and soon realized I was playing a surreal game of catch with Lou Tosi. Maybe that's how I got recruited to play on Shumaker's team in the lawyer softball league, which, along with the after-parties, was a delight. What I miss most is all of the people I interacted with at Shumaker: colleagues, support staff, and clients.

**Q: What news would you like to share about your personal or professional life?**

**A:** I miss Ohio, but I have loved settling into the foothills of the Utah mountains where we're a little closer to family.
