Shumaker

Angela M. Pacherille, PhD

PATENT AGENT

@: apacherille@shumaker.com
P: 704.945.2169
VCard

Angela brings hands-on experience in patenting innovations across diverse sectors, including chemistry, biomedical technology, materials science, and medical devices. With a doctorate in chemistry and background as a researcher, Angela's experience enables her to support inventors and research teams with both scientific insight and strategic foresight in patent development.

Angela honed her expertise as a researcher specializing in small molecule synthesis, including total synthesis and structure-activity relationship studies. She has an extensive background in:

- Organic chemistry
- Drug discovery
- Pharmacology
- Analytical chemistry
- Biochemistry
- Materials science
- Nanoscience

Angela began her journey at Shumaker as a patent agent intern, where she immersed herself in patent preparation and prosecution.

BAR & COURT ADMISSIONS

United States Patent and Trademark Office

SERVICE LINE

Intellectual Property
Strategic Patent Counsel

INDUSTRY SECTOR

Technology

PRIMARY LOCATION

Greenville, SC

EDUCATION

Ph.D., Chemistry, Syracuse University, 2023

M.Phil., Chemistry, Syracuse University, 2020

B.S., Biochemistry, State University of New York at Plattsburgh, 2018

CERTIFICATIONS

Registered Patent Agent, United States Patent and Trademark Office (USPTO)
