Data Privacy Day is January 28

This annual observance highlights the growing importance of protecting personal data in an increasingly AI-driven and interconnected world. From evolving U.S. state privacy laws to the EU AI Act and sector-specific cybersecurity obligations, organizations face a complex risk landscape. Data Privacy Day serves as a reminder that strong governance, defensible security practices, and lawful AI deployment are critical not only for compliance but also for maintaining customer trust and enterprise value.

Insights in the January 2026 issue include:

- New Year, New You*! (* – Privacy Laws): What Businesses Need to Know
- AI Notetakers in the Boardroom: Privilege and Privacy Considerations
- Preserving Privilege in Cyber Incident Response: What Recent Cases Teach and How to Structure Investigations from Day One
- Analysis of New Cyber Threats: Artificial Intelligence (AI) Driven Risks Accelerating in 2026
- Avoiding the Dreaded Denial: What Corporate Policyholders Should Know About Their Cyber Insurance Policies
- Recent Legislative & Regulatory News
- Enforcement Actions
- Notable Data Breaches
