Webinar: COVID-Era Regulation of Antimicrobials and Hand Sanitizers – EPA and FDA Respond to the Pandemic

Join us for an informative overview of COVID-era issues associated with antimicrobial claims and recent EPA rules concerning "long-lasting" claims for residual efficacy of antimicrobial.

Topics include:

- U.S. EPA's new protocol for residual efficacy claims for antimicrobials.
- Enhanced enforcement by U.S. EPA and FDA concerning disinfectants and hand sanitizers.
- Expedited review of products intended to combat COVID-19.
