

Our broad perspective, national scope, and full-service capabilities make Shumaker the counsel of choice for a wide range of transportation, advanced mobility, and logistics clients.

Our attorneys handle claims, licensing, contracts, mergers and acquisitions, employment law, and liability issues for the full range of transportation and logistics companies, while also serving efficiently and economically as their outside general counsel. When major challenges loom, we help advise on legal and cost implications, helping carriers and shippers defend their business interests.

REPRESENTATIVE CLIENTS

- Motor carriers of freight and related broker operations
- Railroads
- Third-party logistics providers
- Warehouses
- Private air travel providers
- Leading national manufacturers of glass products, building products, chemicals, and other industrial commodities

OUR CAPABILITIES

- Helping logistics carriers with licensing, insurance issues, claims handling, liability issues, and corporate matters
- Advocating for carriers in disputes with their insurers
- Assisting self-insured companies with liability issues
- Representing shippers in loss and damage claims against carriers
- Representing shippers in railroad negotiations and contract issues (including Surface Transportation Board rate cases)
- Reviewing contracts for shippers and carriers to proactively identify potential concerns
- Representing sellers and buyers of trucking companies in merger and acquisition transactions
- Advising shippers and carriers on antitrust compliance
- Counseling on labor and employment law services, including creating employee handbooks, resolving wage and hour claims and discrimination allegations, and helping ensure proper record-keeping for driver time
